

technical expansion joint

coflex™ CAJ

The soft plastic is resistant to most relevant chemicals encountered in tile applications, to weathering, ageing and UV rays. Designed to divide big tiled areas in smaller bays. It will remain flexible and resistant to attacks of fungus and bacteria. The CAJ model offers a rather limited tile edge protection.

INSTALLATION Basic Rules:

- Select a joint with the height matching exactly the tile thickness (the joint must not rise above the level of covering surface but should be laid $0,5 \div 1$ mm below the edge of the tiles).
- Trowel adhesive as normal.
- Align the joint over the screed joint (if not existent, cut the screed for at least 2/3 of its thickness).
- Lay tiles alongside the flanges so that they are solidly embedded and flush with the profile.
- The joint between the tile and the profile to be filled completely with grout.

Suggested flooring bays 16 m²

Typical flooring areas: retail shops, hotels and sporting centers.

COFLEX CAJ-P* Co-Extruded Synthetic Resin

Synthetic material profile joint with technical characteristics which offer high elasticity, durability and tolerance to common diluted chemical agents. Supplied in different colours to combine with main grout colours and different covering materials.

Applicable for both indoor and outdoor coverings.

Material: Resinflex + Resinil

Length: 2,70 metres

Colours*: Pure White, Cement Grey, Dark Beige

COFLEX CAJP-P 23 Perimeter joint in synthetic resin

Profile for finishing floor coverings such as ceramics around the perimeter of a room or next to windows, door frames and thresholds.

Material: Resinflex + Resinil

Length: 2,70 metres

Colour*: Cement Grey

The "invisible" expansion joint. It is considered as such due to its 5 mm top width which makes it look as if were part of the grouting joint. The harder plastic flange guarantees an excellent hold under the tile and will follow its movements in compression and expansion. Suitable for internal and external use and virtually maintenance free. Illustrated scale dimension 1:1

H=mm	Colour	Art.
6	11 / 23 / 32	CAJ 60 P + colour code
