wallprotection™ WA

Synthetic resin corner protection profile, through-coloured to hide the effects of wear and damage. The smooth surface makes it easy to clean and more hygienic than traditional skirtings. Available in 16 colours and a range of dual-coloured options. Together with an aesthetic value the dual-colour effect with a darker colour in the central part improves its resistance to trolleys and stretchers passage. These corner protection profiles can be perfectly co-ordinated with the other profiles in the wallprotection range - wall protection strips (WP) and skirting (WB).

Illustrated scale dimension 1:1

WALLPROTECTION WA 60 P* corner protections in coloured synthetic resin
